

**Deployment of an integrated oil & gas production equipment management system based on SAP R/3 for the LUKOIL-West Siberia LLC, LUKOIL-Kaliningradmordneft LLC, LUKOIL-Nizhnevolzhskneft, LUKOIL-Komi LLC**

**Sector:** Oil and gas

**Region:** Russia

**Client:** LUKOIL

**Task:** The LUKOIL-West Siberia LLC is one of the largest companies of the Russian oil & gas industry. The company's activity includes geologic exploration, extraction, preparation and transportation of hydrocarbons at the fields of the Tyumen Region and Yamalo-Nenets Autonomous District.

Apart from the main activity, oil production, the LUKOIL-Kaliningradmordneft LLC produces mobile drillers and tank containers, builds complex metal structures (D-6 offshore oil production platform on the Baltic shelf, permanent offshore ice-resistant off-loading terminal for the Varandeisky oil terminal, residential module and crossover for the Sea Oil Production Platform named after Korchagin in the North Caspian Sea), manages projects for the construction of offshore hydrocarbon fields of the LUKOIL Group organizations.

The LUKOIL-Nizhnevolzhskneft LLC is a company performing the search, extraction and development of oil and gas fields, as well as the extraction of oil and gas in the territory of the Volgograd and Astrakhan Regions, Krasnodar Krai and the Kalmykia Republic.

The LUKOIL-Komi LLC is the largest subsurface user in the North-West of Russia. The enterprise specializes in the exploration, construction and development of hydrocarbon fields.
