

## **Implementing a project asset management system based on MS ERP in Perm Financial and Investment Group**

**Sector:** Financial sector

**Region:** Russia

**Client:** Perm Financial and Investment Group. LLC

**Result:**

1. Implementation of the following business processes:
  - research and decision-making
  - calendar planning and control
  - risk management
  - financial and economic modelling
  - information management
2. Creation of an information portal
3. Development of a complete package of regulatory documents ranging from policy and regulation of the management system to user manuals for the information portal
4. Delivery of personnel training

**Review:** "Despite all the challenges resulting from wide diversification of the PFPG business, ITPS\* was able to find appropriate solutions and create a useful system." Georgy Tkachenko, Deputy General Director for economy and investments, head of the project office.

\* The project was implemented by Parma Telecom (ITPS)
